DATE: 5/9/91
SUBJECT: NL Industries Disposal Status Report
FROM: Thomas Budroe
TO: Gene Dominach

Samples of the slag material at NL Industries have been submitted to four brokers. The present status of each party is detailed below.

Richard Kepler of Merit Environmental Management soon expects receipt of the analytical results of the slag. Upon receipt the analytical will be presented to the interested company for evaluation.

Karl Klotzbach of Industrial Construction Environmental has submitted all required information to a Chinese company who is evaluating same.

Bruce Wojno of Luria Brothers has submitted all relevant data to an interested company. This company evaluated the data and determined they cannot use the material. Bruce Wojno indicated although not all possibilities have been exhausted the chances of finding an interested company at this time are small.

Tony Tognini of Morris Iron and Steel will contact the EPA when he becomes available.

Warehouse Inventory

- 3) CK 31 drums orange Concentrate National Starch
- 5) CK 33 drums ^(30 GAL) Socks
- 28) drums litharge
- 3) drums - looks like litharge
- 4) CK 11 5-10 GAL PAILS MORTAR
 - 1) Drum socks
 - 3) Boxes Socks (new)
 - 5) Bags Castable Cement
 - 1) 10 GAL Pail refractory cement
 - 16) 5 GAL pails Corabond mortar
